İZMİR

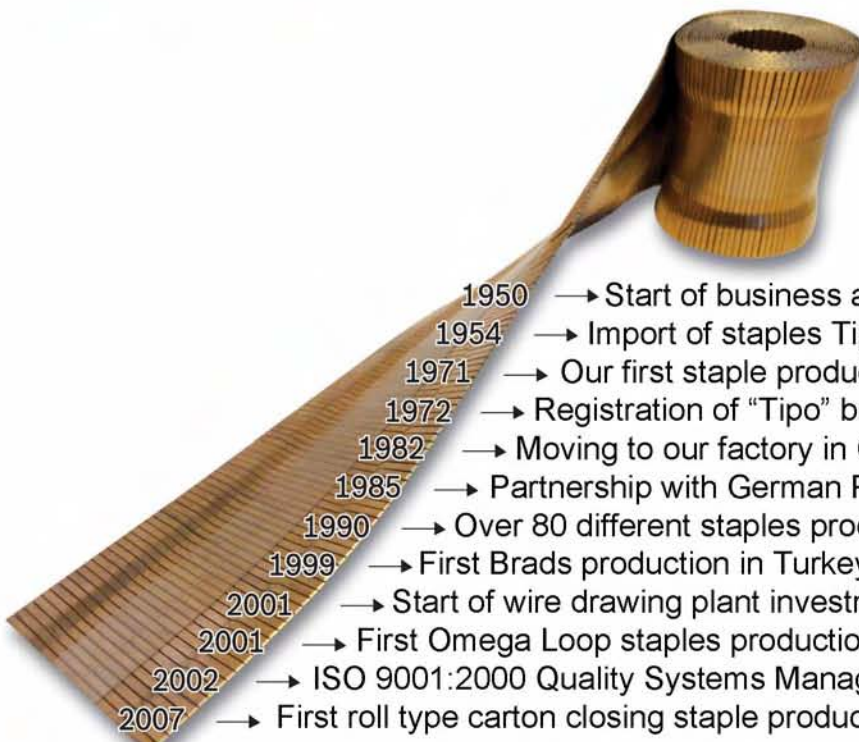

## ABOUT US

Our staple production history starts at 1950s with our founder M. Tacettin ERSOY's visit to Drupa show. Staples which were only imported then, now being manufactured in our factory over 7500m sq. land, in Gaziemir, İzmir, Turkey with modern production processes. Now our factory is capable of manufacturing more than 150 different staples with the advantage of a deep know-how since 1950.

A leading company of this business, Tipso is proud to be the first manufacturers of some staple types in our country. The first producer of loop (ring) staples, brads, roll carton closing staples, stainless steel staples (inox staples), etc... Today with the capability of hundreds of different staples, modern production machines & tools and continuous investments, our company is laying the strong foundations of the tomorrows and enlightening the future.
